Land Speculation in Iowa. FORT DES MOINES, Monday, Jan. 14, 1856

This is a glorious country; its soil is inexhaustible and well-watered. In places where timber is scarce coal is abundant. It is being settled very rapidly and speculation is flour-ishing as it has probably never before done in any State of the Union. It is safe to say that one half the State is in the hands of speculators and non-residents, and a farmer lesirous of purchasing land is compelled to pay one or two dollars over the Government price; while some land, not very desirable
